Romance Under the Stars

Changing Gaits provides life affirming Equine Assisted Therapy programs for youth struggling with mental, emotional, and behavioral disorders. We help youth coming out of households of abuse, neglect, addiction, and trauma.

We need healthy horses to grow healthy children. Romance Under the Stars helps to fund preventative care and veterinary health checks for all of our wonderful therapy horses so they can help at-risk youth to find better health for them and their families.

We are presenting a safe and romantic night under the stars. Get out of your house and join us for an evening of dinner, dancing and trail rides.
